

Good News - Scholarships - Master of Health Sciences 2010

Attention all rural health professionals!

Were you considering postgraduate study in 2010 but thought it might cost too much?

GOOD NEWS!

Commonwealth Supported Places (CSP) are available for the Master of Health Sciences in 2010.

The Master Health Sciences (Rural) may be just right for you.

Do you want to:

- Study part-time from home to suit your work and family commitments?
- Choose a coursework or research combination?
- Complete research in your own professional field.
- Increase your effectiveness in rural health?
- Develop better patient care through interprofessional practice?
- Apply evidence based practice to real clinical settings?
- Choose from further study options such as drug and alcohol in rural communities, Indigenous health, or explore how climate change may be affecting health on a broad scale?

Access further information for the MHlthSc at the following link:
